

VETERANS FOR AZURE

An Initiative of Cloud For Impact

VeteransForAzure.org

We are a 501(c)(3) non-profit organization. EIN# 84-2303848

HELPING OUR VETERANS TRANSITION

FROM THE FIELD

TO A CAREER IN AZURE

Mission

We are a non-profit organization dedicated to serving those who have served. We do this by providing Microsoft Azure training, certification, experience, and job placement for veterans in the USA and Canada.

More About Us

Nearly two-thirds of US and Canadian Military Veterans have reported having difficulty securing employment in their civilian life. This is partly due to the economic environment, but also because their military skills and language do not always cleanly align to what business leaders are looking for. This is where we can help.

We are a non-profit organization dedicating to serving those who have served. By providing cutting edge training in technology and the cloud, our goal is to enable the veteran community to feel empowered and supported as they move forward in their civilian lives.

We work with the Veteran population to provide funding for online learning, in person classes, on the job training with pay, and a mentoring relationship to help them more easily integrate back into the civilian world. When they graduate our program, they have practical references and the certifications they need to get a leg up within the cloud technology space.
