Empowering Veterans, Elevating Futures

HELPING  
OUR  
VETERANS  
TRANSITION

FROM  
THE  
FIELD

TO A  
CAREER  
IN  
CLOUD

## MISSION

We are dedicated to transforming the lives of veterans by providing free cloud computing training, certification, and job placement. Our mission is to bridge the gap between military service and civilian employment, ensuring veterans are valued, supported, and empowered to lead in the ever-evolving world of cloud technology. Our efforts aim to foster a community of innovation, economic growth, and mutual respect for those who have served.

## MORE ABOUT US

More than 200,000 veterans leave the military every year and face difficulties finding employment. This is partly due to the economic environment but also because their military skills and language do not always align with what business leaders are looking for. This is where we can help.

We work with the Veteran population to provide funding for training, paid internships, resume assistance, and job placement. When they graduate from our program, they have practical references and the certifications they need to get a leg up within the cloud technology space.

At Cloud Veterans, we are passionate about making a difference in the lives of our veterans. Since 2019, we've helped over 1,000 veterans transition into a cloud career, and we are committed to continuing our work to help even more veterans make the transition. We hope that our story will inspire others to join us in our mission to support and empower our veterans.
